PACIFIC COMPLETE

涤纶纤维喂入机

FEEDING MACHINE FOR POLYESTER FIBER

上海太平洋二纺机化纤成套设备有限公司

SHANGHAI PACIFIC ERFANGJI SYNTHETIC FIBRE COMPLETE EQUIPMENT CO.,LTD

太平洋成套
PACIFIC COMPLETE

热忱为您提供：

精湛的技术 卓越的服务 超值的回报

We cordially offer you:

exquisite technology excellent service extraordinary rewards

- ▶ 喂入机采用导入轮加喂入轮形式，辊体表面喷涂 Al_2O_3 。
- ▶ 喂入轮采用异步电机加编码器通过高精度齿轮传动。
- ▶ 喂入轮材料改用铝合金以减轻重量同时减少运行时的不平衡离心力，适用高速高产能的短纤维纺丝联合机。
- ▶ The feeding machine adopts the combined form of guiding roller and feeding drum. The surface of the rollers is coated with Al_2O_3 .
- ▶ The feeding drum is driven by asynchronous motor controlled by coder through high precise gear.
- ▶ The materials of feeding drum adopts aluminum alloy to lighten the weight and reduce the unbalance centrifugal force when running. It is applicable to the high speed and output spinning line of staple fiber.

技术数据

Technical date

型 号 Model	Q458
喂入轮直径 \varnothing (mm) Diameter of feeding drum (mm)	480
喂入轮宽度(mm) Width of feeding drum (mm)	125/165
喂入轮电机功率(kw) Motor Power of feeding wheel (kw)	11
机械速度 (m/min) Design Speed (m/min)	1800
工艺速度 (m/min) Processing Speed (m/min)	1400
